

# THE TOUGHEST, ROUGHEST AND SAFEST PORTABLE HEAVY DUTY OXYACETYLENE WELDING AND CUTTING SYSTEM YOU'LL EVER FIND

Optional heavy duty non-corrosive stainless steel braided hose "Pig Tails", connect regulators to cylinders. Available in 24", 34" and 48" lengths.

# Da BOX™

Uniweld's **Tip Mix [A-Style]** equipment is recommended for maximum safety whereby the fuel and oxygen are mixed in the tip

Uniweld's **Tube Mix [V-Style]** equipment has an internal tube mixer

Uniweld's **Head Mix [H-Style]** equipment uses an injector head mixer

Regulator gauges can be read thru cabinet grates

Heavy duty Uniweld flashback arrestors are added to the regulators for maximum safety

Store your torch with cutting tip attached and still maintain tip integrity

Regulators are connected to cylinders utilizing a heavy duty manifold system

Mount DaBOX™ on your truck for maximum mobility and on the job security

• Powder Coated Safety Orange

## DaBOX™ PROTECTS & ORGANIZES YOUR VALUABLE TORCH EQUIPMENT

- Fits all torch/regulator styles
- Can be ordered without any equipment!
- Welded heavy duty handle increases portability
- Solid steel hinged cabinet door protects outfit components from theft and damage while allowing quick and easy access to torch equipment
- Cabinet door has a locking latch that will accommodate a heavy duty lock to prevent unauthorized use of equipment
- See-thru grates provide an excellent view of regulator gauges but still provide a rugged defense against damage
